

AN ORDINANCE approving the awarding of Reference #1437 by the City of Fort Wayne, Indiana, by and through its Department of Purchasing and SHERWIN INDUSTRIES, INC. for the Street Department.

NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA;

SECTION 1. That Reference #1437 between the City of Fort Wayne, by and through its Department of Purchasing and SHERWIN INDUSTRIES, INC. for the Street Department, respectfully for:

the purchase of an asphalt heating machine for the Street Department;

involving a total cost of Twenty-Five Thousand Seven Hundred Fifty and no/100 Dollars (\$25,750.00), all as more particularly set forth in said Reference #1437 which is on file in the Office of the Department of Purchasing, and is by reference incorporated herein, made a part hereof, and is hereby in all things ratified, confirmed and approved.

SECTION 2. That this Ordinance shall be in full force and effect from and after its passage and any and all necessary approval by the Mayor.

BID, OFFER OR PROPOSAL FOR SALE OR LEASE OF MATERIALS

(Defined at I.C. 36-1-2-9.5)
(Please type or print)

Date: Nov. 21, 1990
 1. Governmental Unit: City of Ft. Wayne
 2. County: Allen County, Indiana
 3. Bidder (Firm): Sherwin Industries, Inc.
 Address: 2129 W. Morgan Ave.
 City/State: Milwaukee, WI 53221
 4. Telephone Number: (414) 281-6400
 5. Agent of Bidder (if applicable): Matt Hemphill

Pursuant to notices given, the undersigned offers bid(s) to City of Ft. Wayne (Gov-
 ernmental Unit) in accordance with the following attachment(s) which specify the class or item number or
 description, quantity, unit, unit price and total amount.

The contract will be awarded by classes or items, in accordance with specifications. Any changes or
 alterations in the items specified will render such bid void as to that class or item. Bidder promises that
 he has not offered nor received a less price than the price stated in his bid for the materials included in
 said bid. Bidder further agrees that he will not withdraw his bid from the office in which it is filed. A
 certified check or bond shall be filed with each bid if required, and liability for breach shall be enforce-
 able upon the contract, the bond or certified check or both as the case may be.

SPECIFICATIONS FOR TRAILER MOUNTED, DOUBLE BOILER,
ASPHALT HEATING MACHINE, FOR JOINT SEALING

GENERAL DESCRIPTION

This double boiler type melter applicator should be the manufacturer's current production model. This unit should be capable of heating and applying without any further equipment modification all grades of asphalt rubber sealants, specification joint sealants, and fiber modified sealants. The machine shall be capable of starting at ambient temperature and bringing the sealing material up to application temperature in one hour or less. All qualified bidders must have and maintain a complete inventory of repair parts as well as having experienced service personnel for this equipment. A factory trained person shall be made available for initial start-up and training in the operation of the melter.

MINIMUM REQUIREMENT

BIDDER PROPOSAL

FRAME

This unit shall be trailer mounted. The tongue shall be equipped with a suitable towing means, the center of which shall be a minimum of twenty-five (25) inches from the nearest obstruction on the tongue and shall be adjustable in height above ground level from a minimum of fourteen (14) inches, to a maximum of thirty-two (32) inches, permitting practically level towing with a wide range of towing vehicles. The towing hitch shall be bolted to the hitch plate for easy height adjustment and/or conversion of other type hitches.

YES

RUNNING GEAR

The unit shall be equipped with dual axles, each axle to have a safe load capacity of 3,500 pounds, leaf springs, electric brakes. A screw post tongue jack shall be furnished. It shall be heavy duty type with a load capacity of 5,000 pounds and be side mounted for positive road clearance while under tow. The unit shall also be equipped with two (2) safety chains not less than 48 inches long of 3/8" coil-proof, attached to the tongue with a drilled type clevis pin on the end attached to the frame and a screw type clevis pin on the opposite end.

YES

LIGHTS

The unit shall have dual tail lights, stop lights and turn signals. A license plate holder shall be attached to the driver side tail light.

YES

SPECIFICATIONS FOR TRAILER MOUNTED, DOUBLE BOILER,
ASPHALT HEATING MACHINE, FOR JOINT SEALING CONTINUED

MINIMUM REQUIREMENT

BIDDER PROPOSAL

HEATING TANK

The material heating tank shall have a capacity of 200 gallons minimum at ambient temperature. The jacket shall wrap around 100% of the outside area of the circular material tank and allow for complete circulation of the heated transfer oil.

YES

LOADING HATCH

A low profile opening for loading shall be required at the top of the material tank and located on the curb side of the machine for operator safety. The loading height shall not exceed 57 inches for operator convenience. The opening shall be capable of accepting 60 pound blocks of material. The lid shall be hinged and have a shelf to put material on to provide easy anti-splash loading.

YES

INSULATION

The heating tank shall be insulated with a minimum of 1-1/2" thick high temperature ceramic insulation and covered by a 22 gauge steel outer wrapper.

YES

COLD SEAL TANK

A cold seal tank shall be provided to minimize oil oxidation and prevent moisture condensation into the heat transfer oil.

YES

HEATING

The heat transfer oil should be heated by a high efficiency forced air diesel fired burner directly to the bottom of the heat transfer oil tank.

YES

IGNITION OF BURNER

Burner shall be lighted via a constant duty high voltage transformer powering an electric spark ignitor. This ignitor shall work in conjunction with a sensor that will detect a lack of burn or ignition and shut down fuel supply in that event. The thermostatic control shall be located on curbside of the machine for operator safety.

YES

SPECIFICATIONS FOR TRAILER MOUNTED, DOUBLE BOILER,
ASPHALT HEATING MACHINE, FOR JOINT SEALING CONTINUED

MINIMUM REQUIREMENT

BIDDER PROPOSAL

PUMPING UNIT AND PIPING

The material pumping unit shall be a positive displacement gear pump, quiet operating efficiency in either direction of rotation. The pump shall be hot oil jacketed for fast heating by being piped with the heat transfer oil circulation pump. All piping and material valves shall be heated by enclosure within the heating chamber. A "T" pipe shall be incorporated into the material plumbing system that will allow for the optional connection of a molasses valve for filling pour-pots with or without utilizing the applicator hose. The control handles for opening and closing the recirculation valve, applicator valves, and main tank valve shall be located outside the heating chamber at the rear curb side of the machine for both operator convenience and protection from handling excessively hot control valve handles.

YES

HOSE HEATING CHAMBER

The machine heating chamber, and wand shall be so designed and constructed that under normal day to day operations no clean-out procedure is required. Provision shall be made to attach air hoses for compressed air cleaning after using exceptionally thick and heavy sealants or when preparing the machine for a period of time in storage. Hose heating chamber shall be equipped with a temperature gauge to insure proper regulation of temperature to hose and application wand while in heating chamber. An adjustable damper should be furnished over the flue vent for the heating chamber. Incorporated in the heating chamber should be hose and applicator wand storage racks with drains in the floor. Doors and side walls are to be 100% insulated. Hinged doors should be lockable and designed to overlap and interconnect and provision shall be made for operation of applicator hose while doors remain closed to insure continuous heating of piping extraneous to the material tank.

YES

SPECIFICATIONS FOR TRAILER MOUNTED, DOUBLE BOILER,
ASPHALT HEATING MACHINE, FOR JOINT SEALING CONTINUED

MINIMUM REQUIREMENT

BIDDER PROPOSAL

TEMPERATURE CONTROL

The melter applicator shall have a temperature control device with a high temperature limit switch which will automatically shut off the burner if the heat transfer oil reaches 600F. Also two dial type temperature gauges to visually indicate actual temperature of heat transfer oil and material temperature located on the top curbside of the unit. Gauge shall be located at the discharge side of the material pump to positively show the sealant temperature just prior to placement. Melter shall have infinite control of temperature for the broad range of sealants. From a low of 200F up to a high range of 450F.

YES

AGITATION

The sealant material shall be mixed by a hydraulically driven full sweep agitator to insure that the hot material stays in the lower area of the tank and does not get splashed or thrown to the upper areas of the tank where it can collect and build up. The agitator shall rotate in either direction with infinite speed control.

YES

DRIVE AND DRIVE CONTROLS

The motive force to the agitator and the material pump shall be hydraulic motors driven by a single hydraulic pump and flow divider and driven by a two cylinder diesel engine. The drive controls governing the speed and rotation direction of the agitator and material pump shall be by independent 3-way hydraulic valves with pressure compensated flow control spools located at the rear curbside of the machine. The reversing ability of the material pump should allow material to be pumped back through all extraneous piping and into the material tank so as to leave all lines clean and unobstructed when cooling and to facilitate start-up upon subsequent use.

YES

ENGINE

Diesel engine with electric start, two cylinders, 3000 rated speed, full flow oil filter and constant speed mechanical governor.

YES

SPECIFICATIONS FOR TRAILER MOUNTED, DOUBLE BOILER,
ASPHALT HEATING MACHINE, FOR JOINT SEALING CONTINUED

MINIMUM REQUIREMENT

BIDDER PROPOSAL

SEALANT HOSE AND APPLICATOR WAND

Hose should be not less than eighteen feet in length, insulated, rubber coated, steel braid reinforced, and neoprene lined. The hose should be specifically manufactured for handling of all petroleum based products up to temperatures of 450F at 600 psi. The hand applicator shall be constructed of a light-weight alloy with sufficient strength to stand up to normal day to day operation. It shall have two insulated handles, one of which is connected to a quarter turn ball valve used to control flow of material. The applicator wand shall disconnect in the center allowing for easy storage in the heat chamber. A variety of nozzles must be available and attachable to the applicator wand. The connection between the hose and applicator should be through a 360 degree swivel.

YES

FUEL CAPACITY

The melter shall have a 30 gallon diesel fuel tank minimum for operation of diesel engine and burner.

POWER OF ATTORNEY

No: 278040

Know all men by these Presents, That the **CAPITOL INDEMNITY CORPORATION**, a corporation of the State of Wisconsin, having its principal offices in the City of Madison, Wisconsin, does make, constitute and appoint

----- STANLEY B. STRELKA OR MARY C. WILLIAMSON -----

its true and lawful Attorney(s)-in-fact, to make, execute, seal and deliver for and on its behalf, as surety, and as its act and deed, any and all bonds, undertakings and contracts of suretyship, provided that no bond or undertaking or contract of suretyship executed under this authority shall exceed in amount the sum of

----- NOT TO EXCEED \$500,000.00 -----

This Power of Attorney is granted and is signed and sealed by facsimile under and by the authority of the following Resolution adopted by the Board of Directors of **CAPITOL INDEMNITY CORPORATION** at a meeting duly called and held on the 5th day of May 1960:

"RESOLVED, that the President, and Vice-President, the Secretary or Treasurer, acting individually or otherwise, be and they hereby are granted the power and authorization to appoint by a Power of Attorney for the purposes only of executing and attesting bonds and undertakings, and other writings obligatory in the nature thereof, one or more resident vice-presidents, assistant secretaries and attorney(s)-in-fact, each appointee to have the powers and duties usual to such offices to the business of this company; the signature of such officers and seal of the Company may be affixed to any such power of attorney or to any certificate relating thereto by facsimile, and any such power of attorney or certificate bearing such facsimile signatures or facsimile seal shall be valid and binding upon the Company, and any such power so executed and certified by facsimile signatures and facsimile seal shall be valid and binding upon the Company in the future with respect to any bond or undertaking or other writing obligatory in the nature thereof to which it is attached. Any such appointment may be revoked, for cause, or without cause, by any of said officers, at any time."

IN WITNESS WHEREOF, the **CAPITOL INDEMNITY CORPORATION** has caused these presents to be signed by its officer undersigned and its corporate seal to be hereto affixed duly attested by its Secretary, this 24th day of October, 1988.
